# Attention Sewists!

**The RARE Bear Army Needs the Sewing Community's Help!**

There are an estimated 200 million children in the world with a rare disease and 30% will die before their 5th birthday. The RARE Bear Program is a grassroots outreach initiative for these kids and their families. The RARE Bear Army of community volunteers create one-of-a-kind teddy bears for these special kids. Each sewist who makes a bear for a child receives a picture of the child with their gifted RARE Bear. The bears are gifted to children worldwide at no cost to them or their families. Kids and families will feel the love and hope put into each seam and stitch you sew!

1. Register to be part of the RARE Bear Army online at [www.rarescience.org/rare-bear-program/rare-bear-army-signup/](http://www.rarescience.org/rare-bear-program/rare-bear-army-signup/)
2. You will receive instructions on the process, and program details such as how to purchase the pattern—and how to receive your first free kit with a unique bear serial number and feet fabric.
3. Bring your unfilled bear to the Expo to stuff and they will deliver to a child looking for hope and support.

**Participants will receive a spool of Dual Duty XP thread from Coats and Clark (while supplies last).**

This class is a hands-on experience for beginners who want to know how to make their own yarn with a simple drop spindle. We’ll start with talking about the basics of how to transform fluff into yarn, then we’ll dive right in and play with the fuzzy stuff.
