Quilter's Night Out

Rob Appell

Author • Teacher • Designer • Host of *Man Sewing*

We are excited to announce that Rob Appell will headline our Saturday evening event! Rob has a contagious energy that will infect you with the inspiration bug! Join Rob for a fabulous trunk show displaying some of his favorite creations. During this hour and a half show, you'll learn about his journey into quilting and his resilience that has led him to a career designing quilts and sharing his expertise with others. We love Rob's energy and enthusiasm and we think you will too! He's a California native with a passion for surfing, hiking, playing the guitar, and spending time with his family—along with quilting, of course. Learn how he caught the “quilt pox” and taught himself to make beautiful quilted seascapes. As his personal style emerged, he soon found himself designing fabric and quilt patterns plus a sea of other endeavors. For a sneak preview of Rob's work and enthusiasm, check out [Man Sewing](#) on Youtube.
